SUMMARY:

Updates are listed as action items in the event that members feel the need to create motions in response to the material shared. No motions are required to be made.

The **CACC Update** recaps FY11's major change in monitoring strategy in response to COT's direction at last year's annual meeting. The CACC chair will also review some key project accomplishments, milestones planned for next year, and challenges faced by current statewide projects, some of which will require funding to address.

The **e-Court Update** recaps the year's major activities and issues. Justice Hurwitz and Karl Heckart will update members on specific progress being made with statewide e-filing at the various levels of court and the key issues decided by the subcommittee during the year.

The **PACC Update** reviews the change in focus for the subcommittee in response to COT's direction at last year's annual meeting after CACC's inclusion of probation automation projects in its monitoring purview. The chair will share some challenges faced by adult probation and juvenile justice automation over the next year gleaned from discussions at CACC and the Committee on Probation.

The **TAC Update** focuses on key technology topics discussed during the year and the anticipated work of the subcommittee during the next fiscal year.

Presentations received from the subcommittee chairs are attached.
